

GEROH 1 MT Trailer

Proven Transport Solution

The family of light and medium- weight tactical trailers is used by the german army and other international forces to enhance mobility and logistics capabilities throughout the battlefield. Our trailer systems are especially designed for missions involving extraordinary burdens in extreme and arduous terrain.

The GEROH 1 MT system trailer is ideal for different light drawing vehicles and is used in different areas of deployment. Designed for light vehicles like the VW Widder or off-road vehicles like the MB Wolf, VW Amarok or comparable systems, it is now the most used transport system for specialized and light forces. With a curb weight of 650 kg it has a load capacity of 1350 kg. 1350 kg for additional equipment! Its excellent driving characteristics, its suspension and cross-country mobility as well as its maximum speed of 100 km/h and robustness made the trailer to a perfect means of transport and a cost-effective alternative to increase the payload of your vehicle by more than a ton.

Essential features

- Cargo Bed length/width of 2,70 x 1,50 m
- In use and approved with several equipment - power generators, mobile command posts, ground control station UAV LUNA etc.
- Maximum payload of 1350 kg
- Height adjustable drawbar from 280 mm up to 680 mm
- Maximum speed of 100 km/h
- Air transportable by aircraft and helicopter
- Mission tested by the German Army and other forces

Specifications

Overall length	4,22 m	Load Capacity	1350 kg
Length cargo bed	2,70 m	Tyres	225 / 75 R 16 C 116
Overall width	1,83 m	Brake	overrun- and fixing brake
Gross vehicle weight	2000 kg	Frame	robust steel construction
Height	1,06 m	Axle	hexagon profile with integrated rubber suspension
