

Tactical Military Trailers

Proven Transport Solutions

The Family of Light and Medium-Weight Tactical Trailers is used by the German Army and other international forces to enhance mobility and logistics capabilities throughout the battlefield. Our trailer systems are especially designed for missions involving extraordinary burdens in extreme and arduous terrain.

Our development department is able to fulfil the special requirements of our military customers. We support our and other international forces by delivering high-capacity standard solutions as well as special customized trailer systems.

Long-time experience in producing trailer systems as well as close cooperation with many international forces and procurement agencies for many years makes it possible to define and to offer the best possible solutions. High payloads by low basic weights, maximum cross-country mobility, long life-expectancy and low maintenance requirements are the characteristics of all GEROH Tactical Trailers.

Essential features:

- Maximum mobility - developed for the most difficult offroad terrain
- Maximum payloads
- Maximum mechanical load capacities
- "Off-the-shelf" solutions as well as special customized trailer solutions
- For several equipment - Power Generators, Water Preparation Systems, Communication Systems, Mast Systems, NBC-equipment, ATV's, Command Post Equipment,
- Long life expectancy and minimal maintenance costs
- Scenario optimized and mission tested by German Army and other forces
